The items (if any) listed below identify the violation(s) that must be corrected. Thank you for your cooperation. One reinspection will be conducted (if needed) at no charge. A service fee is assessed for each additional reinspection required.

Violation: None Noted

General Comments:

Today's re-inspection occurred to verify if the facility's new owner completed the listed items noted on the November 29, 2022 inspection report. During today's re-inspection, the facility's preparation cold holding unit measured at 38F, the facility's three compartment sink faucet was changed and is now no longer leaking, and the facility received pest control treatment from Official Pest Control for the cockroach issue. No cockroaches were observed during today's re-inspection. The facility still had some unlabeled prepackaged ice cream bars in the display case. As a reminder, all of the unlabeled ice cream bars cannot be sold or given away to the public. The owner indicated during this inspection that a new vendor will be obtained for the purchasing of the ice cream bars.

This facility will be allowed to open for business once a food vending permit has been paid. As a reminder, please obtain a business license with the City of Lemoore and submit proof of a certified food manager when the certificate has been obtained.

One reinspection will be conducted (if needed) at no charge. A service fee is assessed for each additional reinspection required.

Violation: None Noted

General Comments:

This operation has decided to sell and a new owner by the name of Efren Morales has decided to takeover the operation. This facility will be named Paleteria Y Elados Magic. Prior to the operator being able to pay and obtain a food vending permit from our department, the following will have to be completed:

1. The entire facility will have to be fumigated by a certified pest control company as live cockroaches were observed during today's construction/equipment inspection. Receipts must be retained as our department will ask to view them.
2. The faucet to the facility's three compartment sink will have to be replaced as the current faucet is detached from the sink and too big for the sink. Please note that the faucet must be able to reach all three basins of the three compartment sink without leaking water to reach each basin.
3. The facility's only preparation refrigerator will have to be replaced or repaired as the unit measured at 53F. All cold holding units must measure at 41F or below.
4. All prepackaged ice cream bars that are to be sold at this facility must contain a label from the manufacturer. Currently, some of the ice cream bars were noted unlabeled and some contained a label.
5. Obtain an inspection with City of Lemoore in order to obtain a business license.

This new operation is wanting to sell ice cream bars, scooped ice cream, rolled ice cream, shaved ice, aguas frescas, prepackaged chips, and ham tortas/sandwiches. The ice cream bars and scooped ice cream will be purchased from Tocombo out of Visalia, CA. Please ensure the ice cream manufacturer can sell wholesale and ensure the ice cream bars come with labels indicating the type of ice cream and its ingredients. Please ensure to retain the receipts for all ice cream purchased as the ham purchased. This facility is not equipped with cooking equipment; therefore, this facility can only accommodate for limited food preparation.

When the above noted items have been completed, please call our department for a re-inspection. This re-inspection will be free of charge; however, should another re-inspection be needed to achieve compliance for obtaining a food vending permit, the facility will be charged \$226 per re-inspection. As a reminder, someone from this facility will need to take and pass the food manager's certification. When the certificate has been obtained, a copy will have to be submitted to our department. This facility will be given 60 days to obtain such certification.

NOTE: This report must be made available to the public on request
