The items (if any) listed below identify the violation(s) that must be corrected. Thank you for your cooperation.

One reinspection will be conducted (if needed) at no charge. A service fee is assessed for each additional reinspection required.

Violation: None Noted

The new kitchen and plans are approved with the following condition:

1. The flooring must be well maintained, sealed periodically, and cleaned. This department did not approve the flooring, but it was installed prior to the plan check submittal. For the limited menu items (mainly deep fried foods), it will be approved unless it is not maintained.

2. The 3 compartment sink must be used correctly, with bleach solution for sanitizing.

3. The hood must be cleaned and serviced regularly to avoid grease fire hazards.

Please let our department know, if you decide to change the menu.

Over all there are good changes made to the kitchen and the store in general.

Thank you
