General Comments:

Due to Covid, the Hanford Elementary Schools have modified the school food services. The Hanford Elementary School District Main Kitchen warms up a hot food item and delivers it along with other cold holding pre-packaged foods to each site prior to school lunch pick up hours. The school stores the cold holding foods in the cooler boxes until it is bagged individually for the children to take home. The hot foods are held hot in the hot warming units and placed inside each bag right before the bags are distributed. The time each site receives the food items and are bagged and distributed is no more than 30 minutes on average.

Tables are set up outside at various locations of the school campus for children to pick up the individual bagged food items to take home.

No lunches are eaten at the school.

Bagged items include, but not limited to, are whole fruit cups, juice boxes, dry ready-to-eat foods such as cereal and granola bars and one hot holding item.

No bare hand contact is practiced, and due to Covid the tables are set up as such that there is social distancing and requires all students to have a face covering.

This department performed routine inspections on a few campuses to evaluate the set-up and determined the process to be safe and efficient. The department also performed a routine inspection of the main district kitchen, with no violations. Since the kitchens are not in use, and no routine was performed at this site, this report can be used in lieu of the State requirements.

Thank you
