A complaint was recently received by our Department alleging violations of the California Retail Food Code at this facility. In response to the complaint, an inspection of the facility was conducted and our investigation findings are provided below. If violations are noted, then appropriate corrective action is required as listed in the main section of this report. Thank you for your cooperation. One reinspection will be conducted (if needed) at no charge. A service fee is assessed for each additional reinspection required.

Inspection Findings and General Comments:

A complaint was filed with the department alleging that a couple ate azada fries the evening of October 8th and began experiencing diarrhea after only one hour. The couple stated they went to the ER and were told they had eaten something bad but no testing was done to confirm an FBI. They allege no other foods were shared by them except the azada fries.

The facility was inspected on 10/13/2020 and the following observations were made in reference to the foods in question:

* Carne azada meat was observed thawing under cold running water during the inspection. After thawing, food workers then cut the meat to smaller portions and place them in plastic containers. These are labeled and placed inside the walk-in. During the inspection, containers dated 10/11/2020 were observed at 39F.

* The meat is cooked in batches throughout the day and held hot in the steam table. During the inspection, the cooked azada meat was observed at 171F.

* The fries are kept frozen and deep fried when ordered. Freezers were inspected and found to be below 0F.

* Refrigeration units used to hold other ingredients used for azada fries: cheese, avocado and sour cream were observed below 41F.

* Our department did not receive any additional complaints for the facility, and no violations associated with the food products in question were observed during this investigation. The complaint could not be substantiated and no further action will be required. Case dismissed.

A copy of the unsigned report will be sent to the operator for their records. Please contact our Department at 559-584-1411 if you have any questions.

Violation: None Noted
