Violation: IMPROPER CLEANING OF UTENSILS AND EQUIPMENT
[HSC 114095-114099.5 & 114101-114119]

Description/Corrective Action: The food rack holding miscellaneous flavors of donuts was filthy. The operator stated that the racks were power washed from time to time. Observed syrup and frosting build up on each one of the racks. These must be cleaned routinely to prevent the attraction of pests and cross contamination of foods.

Observe donuts on the floor of the walk in unit. The operator stated that they would get someone to clean the refrigeration unit once the maintenance personnel completed their work. Food must not be left on the floor. This can attract vermin and other pests.

Violation: OTHER PERMIT VIOLATION

Description/Corrective Action: Observed a case of arrowhead water bottles on the floor. Article 5 section 114047 of the California Retail Food Code states that all storage needs to be protected from contamination where it is not exposed to splash, dust, vermin, or other forms of contamination or adulteration, and at least six inches above the floor. This was removed from the floor immediately and placed six inches above the ground.

The items (if any) listed below identify the violation(s) that must be corrected. Thank you for your cooperation. One reinspection will be conducted (if needed) at no charge. A service fee is assessed for each additional reinspection required.

- Routine Inspection -

All hand washing stations were well maintained, had hot water, soap, and paper towels.

The three compartment sink was well maintained, had hot water, and the sanitizer was at 200 ppm (QAC).

All workers practiced safe food handling by washing their hands frequently and wearing gloves when handling food.

All other refrigeration units besides the above mentioned unit were functioning properly at 41F and below. Maintenance personnel were present working on the walk in unit. The operator stated that there was a leak and a puddle was seen while probing temperatures of foods. When probing different food they were holding at 41F and below (hash browns, bacon, dough, etc.). Please send a copy of the invoice to our department. Please clean the interior of the refrigerator when the maintenance is completed.

All freezer units were 0F and below and well maintained.

All restrooms were functioning properly, had hot water, soap, and paper towels.

Hot holding temperature of bacon was 161.3F. The operator mentioned all foods are thrown out every 30 minutes if not used.

The main lobby was clean and well maintained.

Please correct the above noted violations in a timely manner.

Contact our department if there are any questions.

Thank you for your time.
