FOOD SAFETY EVALUATION REPORT

The facility moved locations from D street to occupy the old In-shape building.

Observed: 3 compartment sink and ice machine indirectly drained. The City of Lemoore approved the plumbing.

The 3 compartment sink hand washing station had cleanable back splash and the sinks were sealed correctly.

Only smoothies are going to be made with various protein powder mixtures.

The cold holding unit was measured at 38F. The operator had a surface thermometer to measure.

A log is kept on site for all employees working in the juice bar for personal health screenings, and covid -19 protocols.

The floors observed easily cleanable.

Hand washing station was fully stocked.

The facility is approved to open, as long as other entities approve (City, Fire etc).

A permit fee must be paid to our department before opening.

Thank you.
