General Comments:
An onsite investigation was performed today concerning complaint #CO0010173 concerning a report that a burrito purchased by a customer contained a piece of glassware in it. According to onsite Mgr., Christian Diaz, another manager dealt with the complaint yesterday with a complainant representative. Per inspector request, the other manager was contacted for further information. Mr. Diaz reported his colleague stated a portion of the alleged burrito was brought back to the restaurant but that no physical containment was provided with the burrito. As a side note. Mr. Diaz stated the customer was offered a refund.

Upon questioning, Mr. Diaz stated no glassware is utilized for food preparation and employees are not allowed to drink beverages in the kitchen area. A spot check of the kitchen area revealed cooked food products are stored in a steam table pans that are covered by either clear plastic or metal lids. On plastic lid that was observed had a broken off corner area. Further inspection of additional plastic cover lids revealed many were significantly cracked and worn. Based on this observation, Mr. Diaz was informed to immediately discard all broken plastic lids. Mr. Diaz was advised to consider only utilizing metal pan lids so that any potential adulteration issues do not arise in the further due to this observed situation.

Although the observations revealed in this investigation were made, the received compliant cannot be confirmed based on today's findings.
