Violation: None Noted

General Comments:

Today's re-inspection took place to determine if the violations that were noted on the December 5, 2019 inspection report were corrected. All of the violations, except for one, were corrected. All of the cold holding violations were corrected as all of the units measured at or below 41F and the unit that was pooling water was no longer pooling water at the bottom of the unit. All hand wash stations were unobstructed and were properly stocked with soap, paper towels, and hot water. The shelving in the walk-in refrigerator was changed so that one can easily turn around if needed.

The only violation that remains to be corrected is to have the hood professionally cleaned. According to the person in charge, the hood is scheduled to be cleaned on December 26, 2019. Once the hood is serviced, please email proof that the hood was cleaned to our department.
