The items (if any) listed below identify the violation(s) that must be corrected. Thank you for your cooperation. One reinspection will be conducted (if needed) at no charge. A service fee is assessed for each additional reinspection required.

Violation: IMPROPER MAINTENANCE OF FACILITY OR EQUIPMENT [HSC 114161-114182 & 114257]

Description/Corrective Action:
The hood filters and the surrounding areas of the fryer and stove need cleaning. Grease accumulation can pose a fire hazard.

The operator stated that the professional cleaning company who services are due to come in a couple weeks. If there is constant use, please schedule the cleanings more often to avoid accumulation of grease.

General Comments:
The cold holding units, near the sushi prep area and the cooking area were all under 41°F.

The walk-in was observed well maintained and all foods were separated from meats and veggies.

The sanitizer used is a commercial grade. This is an acid based sanitizer. Please purchase the correct measuring strips to correctly measure the levels.

Over all the food practices are well practiced and the food facility is well maintained.

Thank you

The items (if any) listed below identify the Health Code violation(s) that must be corrected. Thank you for your cooperation. One reinspection will be conducted (if needed) at no charge. A service fee is assessed for each additional reinspection required.

Violation: None Noted

General Comments:

The facility has made their dinning completely inaccessible to customers and is encouraging customers to call-in their orders to minimize their wait.

At this time all food sales are for DELIVERY or TAKE-OUT/PICK-UP ONLY!!

The staff is aware of social distancing by requesting that customers keep apart a minimum of six feet from each other and staff. Only allow entry to customers that can safely keep the same distance between them while they wait or encourage them to wait in their cars.

Staff is practicing safe food handling procedures to protect food from contamination, monitor hot & cold holding temperatures, and WASH HANDS.

Staff uses sanitizing solution (chlorine 100ppm or QAC 200ppm) for wiping down all counters and work surfaces to reduce the risk of contamination. All work surfaces should be cleaned and sanitized frequently to prevent contamination.

Under no circumstances are employees who feel sick or are sick with respiratory (i.e. fever, coughing or sneezing) or gastrointestinal (i.e. vomiting or diarrhea) symptoms are allowed to work in the facility.

An investigation was conducted today to review and verify the above food and employee safety practices are being followed. The report will be emailed to the owner/operator. Please contact our Department for further questions.
